I enjoy this game very much, but I just hate how completely random power-up places sometimes are. It would be nice if they had more rhyme and common sense. When the level of the challenge involves something like power-ups, I hit hard eye roll because I know how ridiculously annoying it is to achieve. I think the game is fun, but I feel like you should be able to adapt the characters. Pick up their shirts, shoes and hair, that kind of stuff. My idea is that I like it, but add more power ups I need them to, but already on another level and started a minute ago is a record of the long-time that the game developer, Crazy Labs, has not provided details about its privacy practices and handling of data from Apple.
