Update: The game is fun and addictive! I deleted it and played it again twice later. The problem is that the other cars started cheating with shortcuts. You will see two or three cars coming out of nowhere! In a way, like other games, the cars have an advantage over you! The more powerful your car becomes, the faster the others will go. You need these weapons to get some out of the way. I also don't know why, but a few times a day, the game would close in the middle of a race that I almost won! It's a great free game, so try it! UPDATE: I've conquered the game many times now!!! I have not heard anyone mention the constant crashes!!! I plan to get a new 10.5 iPad to see if more power will stop the crashes. I never really make these reviews unless the game is terrible in every way imaginable.... However, this is the exact opposite. This game is insanely addictive and fun, well thought out with Graphics and game. That being said, I'd love to see this game BIG go! I'm talking about home console Xbox and PlayStation BIG! Personally, I would at least want it on Xbox. I think that could be so big, if not bigger than Mario Cart. And I volunteer to do everything Necessary to help the developers make it happen. Please make this possible. I think for the most part it's perfect all it takes is to get bigger. More vehicles, tracks and even wider range of individualisation with the vehicles. But the most important thing is to do nothing, even from a distance similar to the Beach Buggy 2! I'm sorry, but if ain't broke not fix! And the second version of this game was a complete abortion! Except for a few good tracks. Again, I'm sorry for the honesty, but it's what it is. Anyway, I would like to see this happen and would like to help in anyway possible, thanks to Team Beach Buggy developer @👉 Ok, so most importantly, the game is great. I love it. exciting, exciting, an off-road adventure. Super fun. Many items to buy, many different modes. Prima. Except... the weapons, you may be affected and possibly destroyed by your own. Example: The oil spill is increasing. I put it down and in the second round I run into my own, get the slippery effect I would have had if it was someone else. Can you change that? I only played 1 day and went 12 times and lost a race because I either died or was thrown off the court by one of my own power-ups.
